¹ **Impact Factor:** The impact factor is a measure of the frequency with which the average article in a journal has been cited in a particular year.

² **International Scientific Indexing:** The ISI server provides indexing of major international journals and proceedings. . All the journal pages have pointers to Web pages of the publishers which are integrated into the ISI stream pages.

³ **Impact Factor with ISI Indexing:** Web of Science is an online subscription-based scientific citation indexing service originally produced by the Institute for Scientific Information (ISI), provides a comprehensive citation search. It gives access to multiple databases that reference cross-disciplinary research, which allows for in-depth exploration of specialized sub-fields within an academic or scientific discipline

¹ **Impact Factor:** The impact factor is a measure of the frequency with which the average article in a journal has been cited in a particular year.

² **International Scientific Indexing:** The ISI server provides indexing of major international journals and proceedings. . All the journal pages have pointers to Web pages of the publishers which are integrated into the ISI stream pages.

³ **Impact Factor with ISI Indexing:** Web of Science is an online subscription-based scientific citation indexing service originally produced by the Institute for Scientific Information (ISI), provides a comprehensive citation search. It gives access to multiple databases that reference cross-disciplinary research, which allows for in-depth exploration of specialized sub-fields within an academic or scientific discipline
